Purpose

PASSAGE is an initiative of Redland City Council introduced in October 2022 and redefined in 2024, delivered as a year-round **Artist Development Program**. The program provides a professional incubator for emerging and established artists, creating opportunities to develop skills with and alongside industry professionals. Facilitated by Redland City Council's Creative Arts Unit, individuals and organisations working in the arts and cultural sector will be supported with in-kind or financial resources, as determined by their specific needs over the course of 12-months. The aim is to promote the role and value of creative expression and artistic development as key drivers of diverse, vibrant, and connected communities.

PASSAGE is delivered by Redland City Council (RCC) in partnership with the Queensland Government through Arts Queensland.

Objectives

PASSAGE Artist Development Program will:

- act as a professional incubator and residency program for emerging and established artists and creatives over a 12-month period.
- generate professional development opportunities for artists and creatives to build capacity as business owners.
- allow artists and creatives to experiment with new, innovative ideas and renewed ways of working.
- increase access to Redland City Council's creative services, providing resources to artists and creatives working in the sector.

Strategic Alignment

PASSAGE is aimed at the development of emerging and established artists, creative practitioners, and producers. Funding is awarded to individuals or organisations creating new work that aligns with Redland City Council's Corporate Plan [Our Future Redlands: A Corporate Plan to 2026 and Beyond](#) and the [Creative Arts Service Strategic Plan 2024-2029](#) priorities: Engagement, Partnerships, Spaces & Sustainability.

Framework

The PASSAGE Artist Development Program offers the following opportunities:

1. | **Developments** | The creative development of a new work or idea.
2. | **Professional Development Series** | Content-based networking events and professional development workshops to connect with industry peers and build applicable industry skills.

1. Developments

PASSAGE is a residency opportunity for **new work in development**, providing an important platform for artists to engage in critical response and review. Each year, up to five artists or organisations can apply for in-kind venue support and a \$2,000 stipend to fund artistic contribution for the duration of the development. The Creative Arts Unit will assist artists over a 12-month period by providing time and expertise during the development process, encouraging and empowering artists to focus on process rather than outcome.

There are four (4) spaces available for use throughout the development:

1. **RPAC Auditorium:** Suitable for development, rehearsals, and performance with large groups. [Venue specifications.](#)
2. **RPAC Events Hall:** Suitable for development, rehearsals, presentations with large groups, and exhibition outcomes. [Venue specifications.](#)
3. **RPAC Green Room:** Suitable for small performing arts projects e.g. writing, development, and readings with smaller groups (1-10 pax).
4. **Redland Art Gallery Workroom:** Suitable for small visual arts projects e.g. writing, development, making, and workshops with small groups (1-5 pax). Workroom availability is subject to negotiation and written confirmation.

Redland City Council will provide:

- In-kind access to space for the development, during venue's non-peak periods. The standard offer would consist of anywhere between 10 and 35 hours between Monday and Friday, 8:30am to 5pm. To be negotiated with the artist/s and Creative Arts Unit.
- Funding of up to \$2,000 per project to pay professional artists and arts workers.
- Advice and mentoring from Council's Creative Arts Unit.

- Advice and ideas on documenting, marketing, promoting, and touring the work.
- Access to mentors and industry professionals.
- Potential for final roundtable discussion with Creative Arts Unit to workshop and plan the next phase of development.

Artists need to:

- Treat Council spaces and staff with respect, leaving the space in the same condition it was provided.
- Advise a self-determined outcome for the conclusion of the development depending on the needs of the project. This could take the form of a research sharing, work in progress presentation, or performance.
- Facilitate a closed debrief with Council's Creative Arts Unit to provide feedback and discuss learnings and next steps.
- Provide Council with adequate visual documentation (photographs and/or video) from the program, which may be used in marketing, promotions, and reporting.
- Be open to sharing the creative process via social media or other means.
- Be open to other possible avenues of support, such as future performance, continued collaborations, and exhibition outcomes.
- Enter into an Agreement with Council committing to the above expectations.
- Acknowledge Council in any future print and online marketing for the project with the following: "This project is supported by Redland City Council through the PASSAGE Artist Development Fund and the Queensland Government through Arts Queensland."
- Acknowledge Council and Arts Queensland via the relevant logos in all future iterations of the work. Logos will be distributed to successful applicants on receipt of signed agreement.

2. Professional Development Series (PDS)

Artists and creatives selected for the PASSAGE Artist Development Program will be contracted as a licensee 'in residence' for a 12-month period. During this time, it is expected that artists contribute and participate in community engagement and programs including, but not limited to, workshops, roundtables, open studios, artist talks, workshops/demonstrations. This engagement is essential for professional development and community building within the program.
